Oh, that's excellent.

Really like it – another level.

I'll share with Alyse and begin prepping for the email distro. Will let you know when I'm ready to send.

See what you think about these edits:

Good Afternoon,

Recently, neutral facilitator Ms. Cindy Cook, or her colleague Dane Maddox, spoke with you about a new Community Dialogue framework for the West Lake Landfill Superfund Site. EPA Region 7 would like to invite you to now participate in a formative Community Dialogue

meeting as the next step in standing up this framework.

**Who:** Invited participants include leaders and stakeholders from government, business, and interested community groups

**What:** Community Dialogue framework formative meeting

**When:** Wednesday, March 2, 2016, at 6:30 p.m.

**Where:** The beautiful new Bridgeton Recreation Center, 4201 Fee Fee Road, Bridgeton, Mo.

The meeting will be open to members of the public, who are welcomed to observe the discussion. The number of audience members will follow fire code limitations.

The goal of the Community Dialogue is to create a framework for inclusive, transparent and fact-based discussions with a diverse group of community members and leaders as EPA completes its work this year on establishing a final proposed remedy for public comment.
